## Our 10 life-saving rules

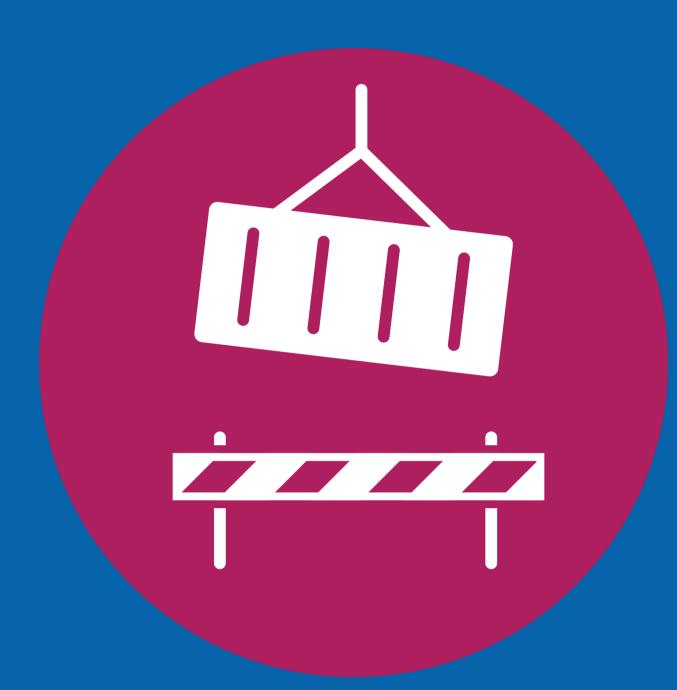

I protect myself from an electrical shock or arc flash! I do a safetycheck before I start my work.

I protect myself and others from a mechanical hazard.
I respect danger zones.

I stay alerted during excavation works. I only enter **excavations** if everything is safe.

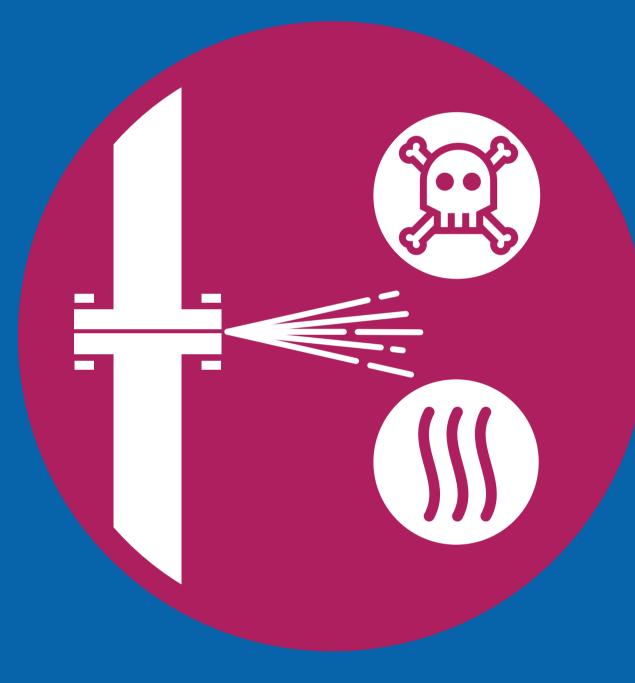

I perform **load operations** safely. I keep an eye on the danger zone.

I respect **hazardous atmosphere**. I check for explosion and gas risks before I work.

I arrive safely. I **drive** defensively and don't get distracted.

I am aware of the risks involved in working with **hazardous or pressurised media**. I follow all safety rules.

I protect my body. I use my proper Personal Protective Equipment.

I protect myself from falling. I secure myself and my tools.

I only enter **confined spaces and shafts** when all conditions are safe.

I know the rescue concept.

Safety is our priority.
